

# Our Quality

Your best business decisions  
begin with accurate data

**Economic development** – identify unique opportunities for finding top international prospects for opening an office, leasing industrial facilities, and to attract foreign direct investment to the economic developer's state, county or region

# What sets Datamyne apart?

- Our US import data is **first** to the marketplace, delivered within 24 hours of receipt from US Customs and Border Protection (CBP).
- The **ONLY** data provider with an ISO-certified data center.
- Datamyne has an impeccable reputation for ensuring that the world's largest database — over 900,000,000 records — meets ISO 9001:2008 standards. No other company in our industry has its own ISO-certified data center.
- Our numbers are cross-checked against multiple sources, and verified against prior months and prior years

# Focused approach for FDI lead generation

Find the best prospects in your area

## Gain a competitive advantage

Datamyne international trade data enables economic development organizations to quickly find and qualify top international prospects for:

- Establishing new offices or manufacturing plants
- Leasing industrial facilities or warehousing
- Find top prospects for foreign trade zones
- Attracting foreign direct investment to a state, county or region

Our information reveals the foreign companies with increasing cargo volumes and identifies those that are top prospects for expansion in the US. In other words, Datamyne can help economic development be more proactive.

We're more than big data about global trade. Datamyne is an innovative new tool for economic development.

# Let's look at Pennsylvania

From March 12, 2015 – March 12, 2016
