

## **Director, Business & Project Development**

The Erie County Redevelopment Authority (PA) seeks an outgoing, creative, and visionary leader with the experience and skills necessary to help it realize its vision and meet the growing demands of an expanding market.

The successful candidate will manage the real estate development team, ensuring all projects are delivered to completion without incident. Must have experience in both brownfield and greenfield projects, be able to coordinate and manage all capital aspects of the project, including but not limited to grant writing, public and private financing, brownfield remediation requirements.

Candidate should be proactive in Identifying the communities' real estate needs and opportunities and serve as the point person for business attraction and expansion inquiries and outreach. Must be comfortable operating in a fast paced, evolving environment with balancing and advancing multiple projects at once.

Five or more years of progressively responsible experience managing an economic development department and real estate projects with a comparable redevelopment agency required. A bachelor's degree and experience in economic development, project management, business or related field required.
